D. No. 635
Encl

To

The Chief Secretary to the Dewan
of Mysore.

Sir,

In accordance with the instructions of the Dewan, I have the honor now to submit, herewith, certain proposals for the extension and improvement of the Bangalore Town. If the proposals are generally approved, regular Estimates will be framed and submitted, but I would point out that many of the works must be taken in hand concurrently as one is more or less dependent on another.

2. The following are the proposed works:-

(1) Extension of Guthalli village with connecting road and improvement of the Dhobies' wells --- Rs: 6000.

(2) Opening out cross road in Fort from East to West, removing 50 yards of wall on each side and filling in ditch for road. &c Rs: 6000

(4) Improving and Straightening Fort main road (part P.) done) Rs. 500.

(5) Repairing the Temple near the old Fort removing dwelling houses &c. Rs. 3000.

(5) Repairing Sultan Tippoo's Palace in order to utilise it as a Town Hall at the same time make it one of the sights of the Place Rs. 25,000

(6) Extension of Town on Gavipur side, present estimated outlay Rs. 20,000. of this only Rs. 6,000 will remain as a charge on the Revenues, as the rest will be recouped.

(7) Forming a new Grain Bazaar on Glacis and on part of present Military Parade Ground. Estimated outlay will be about Rs. 2000, all of which will be re-couped and a fair sum credited to Government by sale of building sites.

Present outlay ——— Rs. 2,000.

(8) Removing Chuckles and Roller Palyas as already sanctioned in Proceedings No. 6245-5-94 of 22nd December Rs. 6000.

Against this expenditure will have to be set the receipts under item (7)

[illegible]

(c) [illegible]

[illegible]

2. [illegible] which will be added a ch[illegible] in front of the Fort, Bate[illegible] Gibbon Park and Gra[illegible] road of houses from Lupan[illegible] on which could be built a [illegible] table for the reception of His Highness' Guests and the adjacent land made into pleasure grounds. [illegible] mentioned the water supply [illegible] already under consideration.

4. I have estimated the proposals mentioned in para 2 to cost about Rs. 84,000, the Municipality to participate to the extent of about Rs. 15000 which will be recouped when the land is sold in blocks for building. I append a Memorandum for reference giving further information regarding each proposed work.

5. If the Diwan approves generally of these proposals I would suggest the appointment of a small Committee

Gyanthala. For the extension of the
village and the formation of a new road
connecting the High ground Lakar, with
with the one passing the Cotton Godown
it will be necessary to acquire 1 or 2 of
several fields. Notice has been given to
most of the landholders concerned. I have
been over the ground again with the Execu-
-tive Engineer and have shortly submit
estimates and a sketch showing the lands
to be taken up and the line of the proposed
road. I will enter in this a lump sum
for the improvement of the Dhobies walls
and surrounding land as at present, the
is all in a most unsanitary state. When
that is done the Dhobis will be confined
to certain places and not be allowed to
wander all over the place.

(2) Opening out Cross road in Fort
from East to West and dismantling
wall. This road will run nearly at right
angles to the present Main road. There
will not be much compensation to pay
as only one house has to be removed.
About 50 yards of the Fort wall on either
side will be dismantled. The road will
then be continued to join the Kanker Lohty
road on the East and on the West
Gavipur road. It is difficult to
the Cost of this but I have put
lump sum of Rs. 4000 for

Improving and Straightening present Fort Main road. Part of this has been already done - and an estimate will be shortly submitted. It will not cost much as only some trees and part of a house has to be removed and Rs: 500 will cover the whole Expenditure.

4. Repairing the Temple near the Palace. This is an ancient place of worship and although the main building is apparently in good order still the surroundings are disgraceful. The wall round the Compound must be entirely removed and in its place either railings or an ornamental low wall erected on 3 sides and in the rear a higher one. Several dwelling houses inside the enclosure will have to be removed and another house found some where near for the Temple Pujari to live in. The amount I have estimated viz Rs 4000 will be more than enough to do all this.

5. Restoring Tipu Sultan's Palace. This building has been allowed to go to wack and ruin, so that to restore it in the same manner as the Darya Dowlat at Seringapatam, would be too expensive. I therefore propose to have the present [illegible] part restored to what it was before and to be painted in a less expensive manner. By removing some walls in the centre of the ground floor a longer open space can be secured. I wish over this matter particularly with the Executive Engineer who has arranged to make

the Western face safe enough to allow the roof to be examined. At present this part of the Palace may fall down at any moment. If the timber in the roof is on the whole sound the cost will not be so very expensive. I propose that the Palace may be utilized hereafter as a Town Hall and at the same time keep it as a sort of show place as it is of some historical interest. I have estimated roughly that Rs 25000, will be ample for this and also suggest to turn the surrounding open space into a pleasure garden.

6. Extension of the Town on the Jaipur side. For this purpose I take from the southern face of the Fort up to the high ground south west of the Sagar should be acquired and roads traced out from the Fort up to that point, about three quarters of a mile. I have been over the ground again and think there would be about 150 acres available for houses and gardens. But, as in this all this land, at once, will involve an immediate outlay of close on Rs 50, I would propose to take up for the present from 50 to 60 acres at the same time having a regular plan of all the ground made, so that the extension may be proceeded with gradually and the two main roads with a cross road [illegible] clearly marked out. By this [illegible] what [illegible] by the [illegible] small [illegible] [illegible] [illegible]

gradually reconciled to it. I have estimated Rs 20000 at present of which I expect Rs. 6000 or so will be expended on roads culverts and drains.

17) Forming a new grain Bazar. The present grain market is in Tarkapar a very narrow street. Here an enormous load is carried on the road is blocked very much inconvenienced. I propose to [illegible] the present Bars and [illegible] as well as some of the [illegible] on the Western slope and [illegible] streets. I would then give the building Department the present site of the Muckleri Palya which would be a convenient. This scheme would have to be carried out with great care. The rents of houses in Tarapet are very high and many houses have been bought at large sums. Consequently the option of building grain stone houses in this new Bazar should be given to the owners of those houses first. I anticipate that the merchants who trade in wood shops will be willing for wood to come. This will not be a remunerative scheme and the money will be gradually fully recouped. The present estimate will have to provide to lay out the two roads as near as possible of the glacis I have allowed Rs for this.

Removing the Chinese Muckleri Palya. This has been a troublesome [illegible] 624/594 for which will be necessary

taken up. Notice of
change will now be given in the
The estimate for this is Rs 60.

9 Town High School. The present
School buildings are not large enough
and I therefore propose to move the School
into the old Barracks near the northern
gate of the Fort. These buildings are in
fair order and it would not cost very
much to adopt them for Class Rooms.
I would then hand over the present School
Building to the Government girls School
I have entered a grant not exceeding Rs 2500
for this. but the work would be done by
the Public Works Department.

10. College Boarding House. This
proposal has already been submitted to Government. A boarding house is necessary
and must be situated close to the College.
I propose to take up a Bandy Stand
that is opposite the College adjoining
the Jail Yard. On this site a suitable
building could be erected with quarters
for one or two Resident Masters. I would
give the owner of the Bandy stand another
site near Gunthalli or the Cotton Mills.
I have entered Rs 15000 for this Project
